Fri. Mar. 13 - No School/Teacher Work day
Mon. Mar. 16 - Fri. Mar. 20 - No School/Spring Break

Happy March! What an exciting month March will be. Officially, Spring starts on March 20th this year. This month, we will celebrate one of the world's famous children's authors, Dr. Seuss (Formal name Theodor Seuss "Ted" Geisel) and our love of reading. March 2nd is National Read Across America Day, which is the largest reading event for schoolchildren as well as Dr. Seuss' birthday. Enjoy the day by reading one of your favorites by Dr. Seuss!

March is also Poison Prevention month. Children will learn about poison, poison prevention, and will watch a DVD about poison prevention. It is a great opportunity to reinforce this at home as well. The number for poison control/emergencies is 1-800-222-1222. Furthermore, there are numerous web sites online about poison control safety for children.

This month, we will also talk about healthy foods. We will talk about eating right, identify food from the different food groups, talk about the importance of breakfast for a great start to each day, and talk about where healthy food comes from. This will be done through a variety of fun activities.

FYI: We encourage parents to be involved with your child at school at all levels. If you ever have any questions or concerns about your child, the curriculum or school relations, please speak to your child's teacher or Mrs. Mott. They are available each morning for a question or two. If you need a longer time period, you can set up a conference. Be assured that it is very important to be involved in your child's education and maintain good communication with their teacher.

****We are now enrolling for Preschool and Kindergarten for the 2020-2021 school year.****
